Roe v. Wade let's pray
They won't sway our way
Sister locked up boxed up knocked up
She's got no aid and no pay
Got no clay to form the day

There's no father to support her
Nothing's offered, ever offered

We make mistakes
Our pain pushes along
Through another day
Stuck in a life that she can't keep up
There's no pay no way
To push another life through the very same day

There's no father to support her
Nothing's offered, ever offered

Big man gonna rip my face off
Big plan while he rips my name off
Big man gonna rip his face off
Big plan while he beats his head off
There's no father to support her
Nothing's offered, ever offered

Got no choice
Coat hanger
Got no voice
She ain't got no fuckin' choice
She ain't got no god damn choice

Coat, coat hanger

Ain't go no choice

The right of the people has been taken
The people have been taken
