Going down,
Down where my breath is the only sound
Going down

Going down,
Going down,
Don't look for me now, all day long,
i'm underground

And I've been thinking about the future
I've been waiting for the day
Let the current carry me,
far away
Let the current carry me awayyyyyy

Current flows,
but I don't know where it goes
I don't care,
I just get it there
Took this job,
cause I needed one
Now its seven years,

since I've seen the sun,
All day long I'm underground

And I've been thinking about the future
I've been waiting for the day
Let the current carry me, far away
Let the current carry me awayyyyyy

Now been thinking about the future,
I hope some day I'll get away
but the current keeps bringing me,
back around,
seems the only place for me is,
underground.
So tommorrow when the sun comes up,
I'll be going down, going down.
Going down.
