I'm the system, I'm the law, I'm corruption, worm in the  
core

I'll tell you everything, the best of lies, the Prince of  
wounds, the Lord of Flies

[Verse:]

No one hears the scream, faceless crawling fear  
Dead voices speak through me of all the things they  
see

[Chorus:]

Lie back and dream of me, red death to set you free  
Black terror stalks the night, I turn the screws to make  
you die

[Verse]

[Verse2:]

You hope it's only a dream, despair - you can't resist  
No one knows your name, learn to fight the pain  
Wonder - worker, doing death, killing all, friends and  
foes  
Wonder - worker, from the dream, create evil, it's  
nightmare

[Solo: Pajak]

[Solo: Vitt]

[Chorus, Verse & Verse2]
