

Essence Of Existence "Death Scholar"

Visit "[Death Scholar](#)" on MotoLyrics.com

Ghostly nothingness of a hallow ether is gathering the strength for an ultimate vibration field.

To fulfill it's function - negation of fallacy. To find deaths restorer.

Enclosing darkness, hoax of lights and shadows

Materialized dust cloud brought by alien kindness

Faint voice of a dream transformed into a weak and insubstantial field.

Bizarre entity with a breath of solar wind

Consciousness of constructed being

His ancient mind got old in eternity, now it craves for brand new brain

Dispose of you emotions, pulverize them into space debris

The aeons are ephemeral like the universe.

Futures have already happened but the pasts are waiting

Aeolian civilizations shall be blown by your breath away

You are me... once again.
