Magnificent wonder Mrs. Bean  
Your daughter's under her chair  
She's hiding her face, her legs, her hair  
You've got them all so very clean

You've done so well, you've kept  
So you must have an angel under your spell  
The people watching from the street  
They'll know her name so well

Like they know your name  
La da da  
Oh and it feels like thunder outside

Magnificent watch you have my dear  
I wonder could I take a peak  
The grandfather clock behind that wall  
He hasn't ticked for a week, no

It's quiet and dark the whole of the day  
It's like a lovely, lonely night  
The clowns'll be coming out at three  
Get ready, are you feeling alright

No I'm not alright  
La da da  
Oh and it feels like thunder outside
