

Essex Green "Sun"

Visit "[Sun](#)" on MotoLyrics.com

When the sun goes out
We'll have eight minutes
But we probably won't know that the sun went out
Till the eight minutes are up

When the sun goes out (echoed)
We'll have eight minutes (When the sun goes out)
We'll have eight minutes to live (When the sun goes)
When the sun goes out

When the sun goes out (gonna get real cold)
Gonna get real cold (gonna get real dark)
It's gonna get real dark (when the sun goes out)
Gonna have a lot of candles

When the sun goes out
We'll have eight minutes
But we probably won't know that the sun went out
Until the eight minutes are up

When the sun goes out (4X)
