*[Estelle: Speaking]*

So I'm in love and I keep telling this guy and it's like he  
thinks I'm jokin every single time I tell him it's like  
"Alright, OK. I love you to yea OK" and sometimes you  
know when you don't know what to do  
and your heart is just exploding and you look at them  
and it's just like

So I sing it like:

Wake me up in the morning with a kiss and make me  
some breakfast

And in the evening a candlelight dinner

Or when I feel restless

Give me a soft massage and my neck starts to tingle

Even when we didn't have anything you still made me  
feel like your queen

Now crystal and their glass is clean

Sleeping on on the floor,

You know what I mean

And I love you because you hold me down

When the world thinks I'm brave you see my frown

I love to be loved like this and I love and I love your kiss

So thankful

Yeah this is all I was trying to say to you:

You make me fall in love again

And I am so glad you chose me yeah

You make me fall in love again

All over and over again

*[Royston:]*

Your like my angel

Perfect for me, that's all I ever wanted you to be

Understand when you said that you loved me

What kind of man would I be if I told you I loved you  
constantly

You probably wouldn't believe me because your frontin  
like you don't even need me

Still I just wanted to tell, wanted to tell

You are my wife, my lover, my sister, I'm your brother

I feel you

I just wanted to tell you

*[Both:]*

You make me fall in love again  
And I am so glad you chose me yeah  
You make me fall in love again  
All over and over again

*[Estelle:]*

Lovin you is like the song that I am singing  
Like the snow and the stars and the sun and the  
conditions  
Take it lots like the northern lights  
Seeing you bounce my heart like the candle lights  
I feel different didn't think this was me  
I'm seeing wisdom, didn't think that this could be  
I wanna kiss him got me being super girly  
Head swirling all because the love ain't hurtin  
Thinking he was worth it

*[Both:]*

You make me fall in love again  
And I am so glad you chose me yeah  
You make me fall in love again  
All over and over again

*[Repeat to fade]*
