Let's just fall in love
So we could fall in love

Let's fall in love
(Let's fall in love)
We could fall in love
(When it's real it could last to the end)
We could fall in love
(Let's fall in love)
Beyond the stars and the moon and the sky

Let's fall in love

I see you, know you see me too
'Cause you're slowing down
Put some extra pep in my step now
I'm trying to be cool make you turn around and check
me out

We walk by each other daily
But something 'bout today said maybe
The street signs, the city lights
All the stars, could lead me to you

And you know if it's okay with you
Let's go, go to some place that we don't know
Don't need a reason, baby, it might be crazy
I'm thinking

We should fall in love
We could fall in love
We could fall in love
Beyond the stars and the moon and the sky

Just fall in love

Let's go slow, we got all the time we could ever need
We can catch a movie and possibly
We can get together more frequently
I can't believe that

We walk by each other daily

But something 'bout today said maybe
The street signs, the city lights
All the stars could lead me to you

And you know if it's okay with you
Let's go, go to some place that we don't know
Don't need a reason, baby, it might be crazy
I'm thinking

We should fall in love
(Let's fall in love, let's fall in love)
We could fall in love
(Let's fall in love, let's fall in love)
We could fall in love
Beyond the stars and the moon and the sky
(Let's go)

Just fall in love

If it ain't us, son, in them Air Force 1's
With all this RosÃ© and all these blunts
Who did violate, you must get stomped
Who the king of New York, and don't say Trump

Nas the name, I used to holler at dames
Let 'em ring the bell at the stock exchange
Put her in Chanel, her Reebok's were lame
Had her front row at the boxing ring

What happened to you girl? You're not the same
Top floor Gansevoort, we're not playing
Feelin' better than I ever did
Nothin' negative, 'cause talk rhetoric

I'm a soldier of love, like Sade
More like Frank, only do it my way
It don't matter what the blogs say
I go hard like ain't nobody stop me

And you know if it's okay with you
Let's go, go to some place that we don't know
Don't need a reason, baby, it might be crazy
I'm thinking

We should fall in love
(Let's fall in love, let's fall in love)
We could fall in love
(Let's fall in love, let's fall in love)
We could fall in love
Beyond the stars and the moon and the sky

Just fall in love
