Do you believe in love? Yes, I believe in love
I believe it's because I've tried
And if you know anything 'bout loving anyone
Somehow you got to be satisfied

Oh, it's all so changing, atleast not for me, baby
I'm doin' what I gotta do
Ooh, I'll be fine, find a way to pass the time
While I sit here waiting on you

Oh, listen
But as soon as you get the chance baby

You've got to love me
(Love me baby)
Please, say I love me
(Love me, baby)
Pretty please

Know it's hard out there, I can imagine how
Who you are in here, see I can imagine now
What kinda attitude, you don't ever have to be
Able to read my mind, ooh

I can hardly walk without nobody talking
So I might as well go out alive
Just as soon as you get a chance

Love me
(Love me, baby)
Please, say I love me
(Love me, baby)
Pretty please

Why, tell me why you wanna treat me so bad
When you know I love you?
Darlin', don't you know I'm giving you the best lovin'
you've ever had
There's no one else for you

Just assume, just assume
Just assume, just assume

Love me
(Love me, baby)
Please, say I love me
(Love me, baby)
Pretty please

Love me
(Love me, baby)
Please, say I love me
(Love me, baby)
Pretty please

Say won't you come love me
Pretty, pretty please
Said if you've got the time baby
Come and spend it with me

Listen
I'm tired of talkin' 'bout it
Just wanna be about it
So come and love me

Listen
There ain't no doubt 'bout it
You 'bout to dream about it
Oh, you best'a believe

Pretty please, pretty please
Baby, baby, baby please
Pretty please, pretty please
