"Troubled World"

Visit "[Troubled World](#)" on MotoLyrics.com

this song right here goes out to all my brothers and
sisters
all across the land
no matter what you going through
you gotta keep your head up
cause god is with you
god is with you

troubled world that i see everyday
so beautiful god created me oooooo
many people many places lord have mercy
the earth was separated

and im just trying to get along in this world on my own
and im just trying to get along in this world on my own
i shall never worry cuz im not alone god is with me
and i know he want let me go

so if you out there and you alone

just remember FAITH is power
and u know

and im just trying to get along in this world on my own
and im just trying to get along in this world on my own

and its all apart of life the pain and the strap
one day we'll understand how theres a master plan
theres a reason for all we go through
theres a promise land
and he promised it to me and you

and im just trying to get along in this world on my own
and im just trying to get along in this world on my own

oooo my ownn

instrumental !
