Boy it feels like torture, that's so bad I want you now,  
now, now  
When your body's near me, I just wanna lay him down,  
down, down,  
Let's find a private corner, oh, a... for this crown,  
crown, crown  
Cause this grinding and this kissing got me wondering  
what I'm missing  
Right now, now, now

If we don't touch, it be the death of us, it be the death  
of us  
If I don't taste your... it be the death of us  
If we don't touch, it be the death of us, it be the death  
of us  
If I don't taste your... it be the death of us  
So come on, on

God I'm feeling all tonight  
Tease me, take me, get me high  
If we don't touch, it be the death of us, it be the death  
of us  
I'll let you be my daddy, if you come make mama  
proud, proud, proud  
You can't even hide it, I can feel your rising, wow, wow,  
wow  
Let's find a private corner, oh, a... for this crown,  
crown, crown  
Cause this grinding and this kissing got me wondering  
what I'm missing  
Right now, now, now

If we don't touch, it be the death of us, it be the death  
of us

If I don't taste your... it be the death of us  
If we don't touch, it be the death of us, it be the death  
of us  
If I don't taste your... it be the death of us  
So come on, on

God I'm feeling all tonight  
Tease me, take me, get me high  
If we don't touch, it be the death of us, it be the death  
of us  
I'll let you be my daddy, if you come make mama  
proud, proud, proud  
You can't even hide it, I can feel your rising, wow, wow,  
wow  
Let's find a private corner, oh, a... for this crown,  
crown, crown  
Cause this grinding and this kissing got me wondering  
what I'm missing  
Right now, now, now

I'm like an animal, no control, I'm more than ready to  
go, eh  
Give me mouth to mouth, let them freaking out  
Cause boy you already know, eh

If we don't touch, it be the death of us, it be the death  
of us  
If I don't taste your... it be the death of us  
If we don't touch, it be the death of us, it be the death  
of us  
If I don't taste your... it be the death of us  
So come on, on.
