performing holdups is the key to financial security
convenient stores fotomats atms wear a mask block
out surveylance don't load your gun wear a scowl it's
all good fun clip the phonelines lock the doors take no
prisoners successful scores come on do the tightbelt
let's do the tightbelt she the tightbelt he the tightbelt
everybody tightbelt desperation is the plea judicial
systems will agree good stories told are bought and
sold empathize with misfortunes souls do what you can
to feed your clan keep 'em warm it's mouth from hand
take from the rich not the poor take what you need not
anymore sing a song of hope and salvation we'll
survive sing a song of hope and salvation we're alive
performing holdups is the key to financial security
