"Get Nowhere"

You just sit around, sit around criticizing
Sit around analyzing, categorizing
Magnifying, magnifying all our blank expressions
Blank expressions gonna take you nowhere

You're not a failure, you're not a failure
You're not failing
Failure, failure, failure, failure
Failure, failure, failure

Don't even try get nowhere, you can't succeed
Don't even try get nowhere
Don't even try get nowhere, you can't compete
Don't even try get nowhere

You just sit around, sit around criticizing
Sit around analyzing, categorizing
Magnifying, magnifying all our blank expressions

Blank expressions gonna take you nowhere

Take me somewhere, take me anywhere
Take me out of here, somewhere out of here
Anywhere I don't care
Anywhere I don't care

Don't even try get nowhere, you can't succeed
Don't even try get nowhere
Don't even try get nowhere, you can't compete
Don't even try get nowhere

Don't even try get nowhere, you can't succeed
Don't even try get nowhere
Don't even try get nowhere, you can't compete
Don't even try get nowhere

You just sit on your fat ass complain
And you will rot
