"Ruin And Renew"

Visit "[Ruin And Renew](#)" on MotoLyrics.com

Just can't seem to get up today
What was old and what was new
It's all the same today
The sun crept out the same as you

Exhale, exhale
Last breath smile

You changed my whole direction
The unexpected slap in the face
You were as happy as Prozac
My prescriptions been replaced
Exhale, exhale
Last breath smile

Ruin and renew
Ruin and renew
Cut and paste here
Cut and paste here

Politics of your relations
I can't stand in the fixation

Cut and paste here
Cut and paste here

Music's a happy daydream
Clouds race by like thoroughbreds
There's one thing I must remember
Someday all of this will end, pretend
