My head is in the sink
And my face has rhythm
I'm so dry in this position
The wall is rearranged

And the dog has mange
And I can't figure out
What I'm trying to say
My head so loud

As the drip goes down
And I forgot that the world's going 'round
The plunger it is staring at my behind the tub
It is looking might fine my head so loud

As the drip goes down
And I forgot that the world's going 'round
Ladies and gentlemen, freaks and maggots
Boys and girls and fagots and shaggots of all size

With ease on the flying trapeze
And the man with three heads
Ladies and gentlemen, welcome to the big show
World's going 'round, somebody told me
That the world's going round
