I get down to the sound of getting down
Slow and heavy
Woman hug me
But, I find the beauty
Baby this is music yeah
I'll do the things you're scared to think about
When everybody's watching
Your arms around me

I get down to the sound of getting down
I like this flavor
I want it to linger ye-eah
Exotic possibilities
And baby we are music yeah
I'll do the things you're scared to think about
and everybody's watching
You're all surrounded
I'll do the things you only dream about
Everybody's watching your arms around me

And if you stay!
I'll take care of you
I am here to comfort you
Anything you want me too
I can't complain!
You're so lovely yeah
All you really gotta do
Is enjoy me

I get down to the sound of getting down
Slow and heavy yeah
Woman hug me yeah
I find the beauty YEAH!
And baby we are music(x3)
And darling this is music
We make our own
Sugar this is music(x3)
Darling this is music We make our own(x3)

(Sedate me, excite me, embrace me, rewrite me)
