"Some Space"

Siting on my stairs at home
Cats sleeping at our feet
You want to stay with me all day
But the clock won't miss a beat

I'll call you later,
Don't you worry I'll be okay
How can I make you see
Don't make a fool of me
I'm not naive, and I'll just turn and leave

C/o
How can I miss you

If you don't go away, if you don't go away from me
Can I miss you? it's only for today
Just for a while just for today

Thoughts of us float in my head
Our laughter ringing clear
I love the way your ears turn red
You wonder what it means
I wonder what it means too

Repeat c/o
