"Stay"

Visit "[Stay](#)" on MotoLyrics.com

Sounds straight from the twilight
Has me up all night I can't
Fall asleep coz I keep thinking of you
And I saw a shadow, outside my window
And it's you!

C/o
All my sorrows flew away,
Hush keep quiet hear me say
I don't ever want you to go
Please stay

With the moonlight dancing free
And there's no one but you and me
There's no reason to go astray
Please stay

-bridge
Making up a story
It's the way you're looking at me
If you think that this is funny
It's just you

Try and think about it
If your heart is closed don't lock it
Keep your keys back in your pocket, think this through

Repeat c/o

Please stay
Just stay with me
I'll take you to forevermore
Just stay
