

## **Estranged "Chocolate Syrup"**

Visit "[Chocolate Syrup](#)" on [MotoLyrics.com](#)

Clean up the mess I've made today  
I've left this time for good  
Think of the good times that we had  
Instead think of me as well

You like it when I  
You like it when I make you  
You love it when I  
You love it when I make you  
As though you hate it  
When all this time you were pretending  
It's sweet as chocolate  
But not as sweet as hers

I'm better, better than that x2  
I'm bigger, bigger than that x2

You're next, I'm glad that you're the same  
Easy, I hope I won't be bored  
It's like this, it won't take that much time  
I'm coming, and you won't be late

You like it when I  
You like it when I make you  
You love it when I  
You love it when I make you  
As though you hate it  
When all this time you were pretending  
It's sweet as chocolate  
But not as sweet as hers

I'm better, better than that x2  
I'm bigger, bigger than that x2
