[-only on Japanese version]

{I don't know why I feel this way}
{Honey I think I should drop}
{No man's worth waiting 12 months}

Uh-Ahh

It took 12 months baby
For me to be your lady
3-65 days of the year
It took 12 months baby
For me to be your lady
3-65 days of the year

January, you asked if I was ready
To get intimately tangled with you
February, then it was necessary because I realised that
You were such a dude
March, I offered you my heart and everything you get
with it
You get for free

April, well well well
You're looking so swell
To kiss and tell

It took 12 months baby
For me to be your lady
3-65 days of the year
It took 12 months baby
For me to be your lady
3-65 days of the year

May, oh what a glorious day
Things are going my way it was a private party
June, you took me to the moon, mmmmmmm
July, oh why oh why

Can't you satisfy?

It took 12 months baby

For me to be your lady
3-65 days of the year
It took 12 months baby
For me to be your lady
3-65 days of the year

I was digging his lies, digging his lies, digging his lies
Baby, I was digging his lies, digging his lies, digging
his lies

August, hush hush this is a must must
Don't you make no fuss
Let's just make love
In September, do you remember?
We had a really good time
In October we got closer
Now I know that you're mine

It took 12 months baby
For me to be your lady
3-65 days of the year

You better think about it

It took 12 months baby
For me to be your lady
3-65 days of the year

In November we were definitely together
And in December you put the ring upon my finger

You know I know that you are definitely mine

[Repeat chorus to end]
