"Free To Live"

She saw the future dying
And heard her baby crying
And wondered why it had to be
She sat and watched the sunrise
And felt the tears of compromise
A young girl learning to be free

Her days and nights were so cold
She longed to share her heart and soul
With someone willing to believe
She saw the beauty in a strangers face
And felt the warmth of his embrace
A fairytale that set her free

[Chorus:]

Free
She wants to be
Free
He made her feel
Free
She's paid the price
Free
She longs to be
Free
She's gonna be
Free
To live her live
Free
To live her live

He said he'd stay forever
They'd make a life together
He swore it was their destiny
Now all alone she understands
Between a woman and a man
Love is a spirit flying free

[Chorus to finish]
