I look for something in your eyes
To see if I can find a trace
Of what I've been looking for
Just a sign
Of that ever burning light
Of a flame that burns my yesterdays
Only ashes will remain

Look what you do to me
I want you to let me on the inside

Illuminate - every part of me
Illuminate - come and set me free
Illuminate - a soul in need of life
Illuminate - cover me with light

Like the stains upon my heart
I was wounded from the start
I never felt a sense of sanity
Your whispers linger in your scent
A premonition I relent
Bleed me dry
Take your fill of every thing I have

Look what you do to me
I want you to let me on the inside

Illuminate - every part of me
Illuminate - come and set me free
Illuminate - a soul in need of life
Illuminate - me one last time

Me one last time...

Illuminate - every part of me
Illuminate - come and set me free
Illuminate - a soul in need of life
Illuminate - me one last time

Me one last time...
