

Eternal "Without Reason"

Visit "[Without Reason](#)" on MotoLyrics.com

All I've learned I leave behind
I've been running through this blind
Serene and free
But I'll never return (never return)

Clinging to my desperation
I won't expect resolve
I've been waiting all my life

Through the shards of light
I see a broken image, dull and grey
I won't forget in time
I won't regret our yesterdays
And I've been smothered in doubt
Troubled without reason

Although I look I cannot find
My only dream remains denied
And I'm left here feeling
I'll never be free (never be free)

Holding on in desperation
I won't accept this loss
I've been waiting all my life

Through the shards of light
I see a broken image, dull and grey
I won't forget in time
I won't regret our yesterdays
And I've been smothered in doubt
Troubled without reason
