[Solo: Eyal]

Fools, with no repent you keep on preaching
The hate I feel through ears receiving
Only sadness at that time
When friends became my own disease
Feeding on my soul, I find it hard not to ask why
Condemned my self to never feel
Though parting I absent mourn at all

Speak no more of all these words
The just my ears need to be served

Stupidity reeks from empty lies
Unleashing germs unto the sky
The air polluted form mind disease
Spread around the evil lives
Harsh words from empty mouths
Yet still heard all around
Need you not I shall not listen

Serenity within myself

Speak no more of all these words
The just my ears need to be served

Sacred is serenity
And gray the path need to be taken
Forever I am in the middle
Eternal gray with no regrets
Speaking only to be heard
Your words penetrate my brain
Another cell just burned away
Causing me to feel just pain

Never shall I listen to my heart alone
Thinking only of what good occurs
Triggered to spawn from within
In sickness you stand afflicting spreading around
Forever sealed my ears from your lies
Thoughts, words and looks all die
