"Forever" you said, another lie  
You gave me only fragments of your love  
Don't you have any pride, any feelings  
My angle of deception, deadly as time

You left me behind betrayed  
How could I be so stupid to believe, that I could trust  
you again  
I gave my life into your hands, but you just let me fall  
My angel of deception

A lady bitch, real temptress  
You cannot pull me any deeper  
I have already reached the bottom of sorrow  
Torn apart and thrown away

Alone - with my tears, my wounded pride  
Beaten - on my knees unable to rise  
Stolen - is all I valued in life  
Alone - with my angel of deception

"Forever" you said, another lie  
You gave me only fragments of your love  
Don't you have any pride, any feelings  
My angle of deception, deadly as time
