The fire in your soul is fading  
When our worlds collide  
The charming serpent slithers  
While an innocent dies  
I set a trap of the sneaking temptation:  
You know I feel forever desire:  
Cleanse yourself of all your sins  
I can feel your sinful thoughts  
Your looks stain my soul  
You are the virgin, you are the whore

Who am I to forgive you?  
Turn away from the evil eye  
Obey.. You're mine..  
Forever:  
Get used to the pain now  
It's only thing that's real  
I've hidden the truth behind the mask  
Forever bending the truth  
I set a trap of the sneaking temptation:  
You know I feel forever desire  
[Chorus]  
Welcome to the afterglow of my past  
The last chapter of the Fall of Man  
Still, deep inside your weak heart  
You know I'm the one.. For you..  
I set a trap of the sneaking temptation:  
You know I feel forever desire  
[Chorus]
