Ooh, Mother - I'm gonna leave and I won't return... I
won't return

Ooh, Father - leave you behind in search for the
course... to search what I learned

[Chorus:]

We set the sails leave for a distant shore...

Set the sails ooh yeah

We set the sails leave for a distant shore...

Gotta find direction

Gotta do just what I have to do

We set the sails leave for a distant shore... oh... oh...

Ooh, Mother - dry all your tears - I will return... I will
return

Ooh, Father - to loose means to win, to search means to
find a place so unkind

[Chorus:]

[Solo]

Ooh, Mother - we'll meet again on that different shore...
on that distant shore

Ooh, Mother - to loose means to win... that's what I
know, where should I go?

[Chorus till the end]
