(c) Eterne 1993

The memory lingers, the melody haunting. Sweetened  
Caress, your body flaunted. Only my dreams, only my  
Flawed mind. Will bring you to me. I gazed upon  
Wonder. I tasted your fruit, nectar of the purest  
Form. Divinity absolute. I am here desolate. You were  
To be mine... eternally mine. Your love torn from me.  
I am deceased. No barriers to this worldly pain I  
Suffer again and again. Your beauty, wisdom, love...  
Extinguished as am I. Destroyed... deserted. Carried  
On unsure tides. I have all time stretched before me.  
With no gods above. Won't you hear my lament to a  
Love lost. A lament to my life soon to be lost.  
Recorded and mixed by Julian Hill of the Whore of
