

## **Eternal Tears Of Sorrow "Scars Of Wisdom"**

Sometimes it's just the time to rest and leave all your  
pain behind  
Time heals the wounds of loneliness and leaves the  
scars of wisdom into your mind

Romance, it didn't last... Emotions were frozen by the  
past  
My heart bears the scars... Wall of pain covers my  
heart  
Yearning to fly once again, on the broken wings of  
hope I will rise  
Flying with a singing nightingale and join the final  
dawn of my life

Chorus

See her eye to eye, find the end of time  
Falling down so lonely, down to her arms
