Images are painted in my head while nightmares
disguise themselves as daydreams
They're coming to get you
They're coming to get you too

This message will self destruct; intensify the situation
simply by smiling back at the still lifes
Still I wonder if they're stealing my breath

Shadows dance in the corners of my mind
The sound echoes through the halls of compromise
We feed these parasites when we seek to gratify the
moment

Healer, heal us
For we've turned our backs
