

## Ethereal "A Lonely Dancer"

Visit "[A Lonely Dancer](#)" on MotoLyrics.com

A fallen dream...I hit the ground of Eden  
For a last time...  
A bleeding vision...an ancient prophecy  
White wings still burning...  
I'm hidden in the dark...autumn never ends here  
Forever trapped in the wings of eternity.....  
I gave you shelter...a place without fears  
Oh, now I'm dancing with spectres of heaven.....  
A burning symbol bleeds - A deathless path ends  
Did you realize what we have done?  
A burning heart cries - A deathless love begins  
I realized, life is just lies...  
That bleeding vision shows us a true life  
White wings are burning...  
A lonely dancer...so far away from you  
Sad melody dies - forever love lives...  
A burning symbol bleeds - A deathless path ends  
Did you realize what we have done?

We're living in a new paradise...a painful journey  
begins  
We're wasting intentions of life...we're wasting all of  
our sins.....

We are wasting all...a lonely dancer  
This is the last serenade...this is the last serenade  
This is our last serenade...a lonely dancer...I am...  
A burning heart cries-A deathless love begins  
I realized, life is just lies...  
We're living in a new paradise  
...a painful journey begins  
We're wasting intentions of life  
...we're wasting all  
My fallen dream...it seems a broken mirror  
In a lost time...  
Ethereal vision...ethereal prophecy  
White wings will fly again...  
Until then a lonely dancer I am...will fly again...  
Will fly again...a lonely dancer I am...I am...
