[Music by Vidar and Herr Doktor, lyrics by Vidar]

The Mother of all knowledge, the book of my disguise,
Whence doeth come the storm that I can't see?
A dusk-flame reborn whom whirlwinds obey
Just thousand more years elements decay
And whither then it pass' crestfallen poetry?

Of earth and oceans, sky and lightning, we are born
All four quite distant, still the mixis of the apeyron,
Self-battled odyssey, the spiral to the core
Of the thought that no human ever thought before...

The maze with thousand spotlights, heroic is the one
To walk is straight as the mountain path alone,
Pass the shapes, lost in circles run
Searching not for the moon nor sun,
They seek the words to describe, the wisdom's sacred
spawn.

Of earth and oceans, sky and lightning, we are born
All four quite distant, still the mixis of the apeyron,
Self-battled odyssey, the spiral to the core
Of the thought that no human ever thought before...

Ever thought before,
Spiral to the core,
Settling the score,

Spiral to the core.

Pozrime si do oã"l. Sme Hyperborejci - vieme az prilis
dobre, ako zijeme bokom.

"Ani po susi, ani po vode nenajdes cesty k
Hyperborejcom": to vedel onas uz Pindaros.

Mimo sever, mimo Â¾ad, mimo smrÂ¼ - nas zivot,
nase sÂ¼astie...

Objavili sme sÂ¼astie, pozname cestu, nasli sme
vyhodisko zcelych tisicroã"l labyrintu.

Kto inak ho nasiel?

Moderny ã"lovek snad? - "Neviem odkiaÂ¾ kam, som
vsetkym, ã"o nevie, odkiaÂ¾ kam" - vzdycha moderny

„lovek... Touto modernosou sme stonali, zhnitym
mierom, zbabelym kompromisom, vsetkou cnostnou
neistotou moderneho Ano a Nie.

Tato tolerancia alargeur srdca, ktora vsetko
"odpusa", pretoze vsetko "chape", to pre nas
scirocco.

Radsej vade zi, nez medzi modernymi
cnosami a inymi juznymi vetrami!

Formula nasho sastia: jasne Ano, Nie, priama linia,
cie¼...

We chase the raindrops by the chalices of wine,
Cockroaches in the dirt is what we call goodwill divine,
Confused and mislead, the pathfinders of destiny,
On the ladders to the higher principles...
