Rise up
My soul
Take flight
Accelerate

By grace brought home
I will abide with you
At your throne
I will commune with you
Lord now show your face
I give praise to you
The feast it waits
I will fellowship with you

The christ will reign
Glory seated on high
Purest blood
Power none can deny
Dominion is yours
And all bow to you
Your life you gave
For such evil i do

So yearns my soul
To dance on lakes of glass
And by your name
You give what we may ask
Banish what is false
No misery no lies
Engrave my heart
The truth for which it cries
