"Make Believe"

Visit "[Make Believe](#)" on MotoLyrics.com

What you don't have, make believe
What you're wanting for, make believe
Anyone, anywhere
Anything that you need, make believe

Who you want to be, make believe
What you're gonna do, make believe
Who you want to love, make believe

What you don't feel, make believe
What you want to be, make believe
Anytime, anyplace
Anyway that you please, make believe

Who you want to be, make believe
What you're gonna do, make believe
Who you want to love, make believe, believe
Who you want to be, make believe
What you're gonna do, make believe
Who you want to love, make believe

I used to go a thousand miles
To get to where I haven't been before
But everything I feel and everything I want
Is waiting there right outside my door

Who you want to be
What you're gonna do
Who you want to love
Who you want to be
What you're gonna do
Who you want to love

Who you want to be
What you're gonna do
Who you want to love
Who you want to be
What you're gonna do
Who you want to love
