Sitting here thinking, about the times I roamed
Different guys, that I have known
Of all the guys, that I have met
You are the one that I can't forget

We had our times, now
Good and bad times
I can't forget him
And I sure ain't gonna regret him, no no
Remember Side Stream
Where we used to meet
Making love, nobody but you and me
You and me

Champagne and wine
That's what you gonna get
Champagne and wine
What it's gonna be
Just as long as you can see about me
I'm gonna be knocking, knocking at your door
I want the same love that I had before

I'm a woman now
Full-grown, full-grown woman
You got me eating from the tip of your hand
I said, I don't mind eating, long as you feed me
Good love and good old sympathy

Champagne and wine
That's what it's gonna be
Everyday is gonna just be like Sunday
Everyday is gonna be like, like Sunday
Every night you're gonna have stars in the sky

Champagne and wine
I'm gonna give it to you
Champagne, champagne and wine
I really love you baby
Really do need you honey
Really really love you baby
Really do need you honey
Sitting here thinking about the times I roamed

Different guys I've known
Of all the guys I've met
You are the one that I can't forget

Champagne and wine
That's what you've given to me baby
Champagne, champagne and wine
Champagne and wine
I'm gonna give it to you
Champagne and wine
Really really love you baby
Really do need you honey yeah
Really really love you baby
Really do need you honey
Really love you baby
Really need you baby baby
Bring me, bring me champagne and wine
Champagne and wine
