Out of the rain, under the shelter
I've been so long where the sun don't shine
Standing at the crossroad, oh, could have went either
way
But now I've found you and the storm is behind

Out of the rain, out of the rain, oh yeah, oh

Over the wall, I'm out in the open
Back on the right track, I'm feeling no pain
You took a sparrow, let it fly like an eagle
I can see long ways, I feel love again

Out of the rain, out of the rain

It took your sweet love to pull me out of the canyon
And I believe I can make it now, I feel like I belong

Out of the rain, out of the rain
Out of the rain
Out of the rain, out of the rain
Out of the rain

Out of the rain, I'm out of the rain
Feeling no pain, I'm out of the rain
Clean out of the rain
Out of the rain
