The sky is cryin... look at the tears roll down the street
I said, the sky is cryin... look at the tears roll down the street

I'm wating for you baby
I've been looking for my baby
And I wonder wonder wonder where can she be

I saw my baby one morning... he was walking on down the street

I saw my baby I saw my baby one morning... he was walking on down the street
Make me fell so good
Made my poor heart skip a beat

Now listen...

I've got a bad bad bad feelin
That my baby she don't love me no more
I've got bad bad bad feelin that my baby don't love me no more
Now the sky's been cryin
The tears roll down my nose
