ohhhhh
the begining of the day
struggling to remain awake
when the world is freezing

ohhhhh
now the walls are caving in
I see fingers gripping skin
in the silent greeting
it's happening again
I forgot who I am
is it better to go numb
than to feel this way

so what your hearts been broken
minimalistic in comparison to mine
im fine
I'll get by just remembering
years from now this won't mean a thing
today deserves my company
the past is past
and we can never change a thing

this is all I have to give
but its good enough to get me through
this is all I have to give
but its good enough to get me through

your taste is
like poison
flowing through my veins
straight to my head
false off lips
so fade out
giving off of living
that was it

this is all I have to give
is it good enough to get me thorough
this is all I have to give
but its good enough to get me through

I'll just hold on
I know I know I know
ohhhh
I'll just hold on
and through and through and through

welcome belows
alter my perception
clouded eyes
deminish their deception
focus shadowed
falted by design
focus evil
met through the eyes
inside
