don't look now
they're after
they're coming after you
and there's nowhere to hide
it's trapped inside of you
sense paralysis
there's nothing we can do
building collapse
in the wake of this shattered core
we're forced to run
pushing closer
closer to the edge
taste of fear
the mess created
there is nothing
nothing left to lose
when it's taken all away
you're heart beats
like thunder
they're right behind you
breathing down you neck
waiting for your next move

stumble through the streets
they're catching up to you
buildings collapse
in the wake of this shattered core
we're forced to run
pushing closer
closer to the edge
taste of fear
the mess created
there is nothing
nothing left to lose
when it's taken all away
the grip is strong
expectations so high
oh, vulnerable
pushing closer
closer to the edge
taste of fear
the mess we created

there is nothing
nothing left to lose
when it's taken all away
