Is that seat taken?
Congradulations
Would you like to take a walk with me?

My mind it kinda goes fast
I'll try to slow it down for you
Think I'd love to take a drive
I want to give you something
I've been wanting to give to you for years

My heart
My heart my pain won't cover up
You lift me up (up up up)
My heart
My heart can't take this cover up
You lift me up (up up up)

I came to see the light in my best friend
He seemed as happy as you've ever been
My chance of being open was broken
And now it misses him

My words they don't come out right
But I'll try to say I'm happy for you
I think I'm gonna take that drive
I want to -- to give you something
I've been wanting to give you for years

My heart
My heart my pain won't cover up
You lift me up (up up up)
My heart
My heart can't take this cover up
You lift me up (up up up)

I can change this
I can never take it back but now
I can change your mind
You lift me up (up up up)

And I can't take this

I can never take it back but now
I can change your mind
Can change your mind
You lift me up (up up up)
Can change your mind
You lift me up (up up up)

Go away
Make it go away, Please
