I know a way through all these lies,
And I can show a fake that's in disguise
You will be so lonely when I'm gone,
For I am everything that you are not
Please forgive me now I've let you down
I never meant to go this far, I never meant to break
your heart
Break my fall somehow I'm coming down
I never meant to go this far, I never meant to break
your heart
I know we've wasted so much time,
And I can see the face on each new crime
You will be so lonely when I'm gone,
For I am everything that you are not
Please forgive me now I've let you down
I never meant to go this far, I never meant to break
your heart
Break my fall somehow I'm coming down
I never meant to go this far, I never meant to break
your heart
