Here alone, standing barefoot in our lawn,
Worms squeezing their way through my toes
Tonight that's how it goes.
I'm at your window kneeling quiet,
I thought at least I'd maybe try to get your head right
Your heart right
"Let him go!"

Then through the glass I see your dress fall to the floor
As he embraces every inch of you
The woman I adore.
I can't believe the way you're bending
Can't believe this neverending moaning asking him for
more
Begging him for more

How far will I go
To make it feel right? "Come home"
I have to fix this on my own

Replace my heart,
Cause I'm convinced mine broke the day I let us end
Replace my heart,
I don't wanna live by coping, I'm done with hoping...
end

I crept in close enough to see the way he touched
her,
From her feet across her knees, inside her sweetest
spot
He pleased and pleased her.
I turned around and tried to take control, but no control
was capable
It was a centerfold of how less than low can possibly
go.

I squeezed the life into my brain
Like pushing knives into a vein
I've gotta get, I said I've gotta get inside
So to the back window I crawl in silent standing in the
darkness
Of my living room

This used to be my home

How far will I go
To make it feel right? "Come home"
I'm moving forward to the bedroom door

Replace my heart
Cause I'm convinced mine broke the day I let us end
Replace my heart
I don't wanna live by coping, I'm done with hoping...
end

I turn the doorknob with two fingers to be slow
Enough to sneak into the room among the corner
darkness gloom
I had to see this happening.
He pushed himself so deep inside her clapping rang
and bounced off every wooden walled room
And that's when all went silent blank except for the
color red
As I walked calmly numbing paralyzed beside the bed
I said "I know I'm not allowed to be here. I just had to
see
How good this new man really fucks you. Cause you
both been fucking me."

"So now I planned this last thing you can both do as a
pair
I tie both blindfolds tight around your fucking eyes to
blind your stare
I don't want to alarm you, but I figured we could end
this in what seems easy quick and painless
Man, so I'll get down to business
I choose you first, there's a gun, it's at your head
So laugh at me just one more time but put your face
inside the bed
You sit and watch me while I do this shit and learn from
what I've said."
I cocked the pistol pulled the trigger, and all I saw was
red

How far will I go to
Make it feel right? "Come home"
I have to fix this on my own

Then the screaming oh the screaming
It's nice to see you scared
Of such a weak and stupid husband
Who knows you never really cared
I'll leave you with a question that I need to hear from
your head

Was all this worth it knowing you have just seconds left
to live?

Now think about your answer, laying face down on the
bed

I cocked the pistol pulled the trigger and all I saw was
red

I gently stroke her arm as she lies lifeless on her back

Then placed the barrel in my mouth

All I saw was black.
