Pride...

it leaves you hollow  
another attempt  
just to settle the score  
a war, you know the one you built it up

it's real defining  
humiliation  
Oh it knocks at your door (at your door Ohh)

When you say i blow up  
i say you cave in  
we never found the line between  
the real and pretend  
you know you should accept it  
this is really the end  
i know for sure, it's what i have to do  
is follow through

And you were everything i'll ever want to be  
the only one i ever need to know  
i'd wait for you til time lay down to sleep  
and i'd sneak across the world to let her know

yeah that's what i do  
Yeah i follow through  
oh i follow through

Oh and here i stand  
Yeah i'm too close but still you're far away  
you never tried but i did  
And we still remain divided

oh i can't believe that your heart's still beating  
its beating for me at all  
how sad of you, Oh but I'm not,  
but i'm not sad at all

When you say i blow up  
i say you cave in  
we never found the line between  
the real and pretend

you know you should accept it  
this is really the end  
i know for sure, it's what i have to do  
is follow through

and you were everything i ever want to be  
the only one i ever need to know

i'd wait for you till time lay down to sleep  
Yeah and i'd sneak across the world to let her know

Yeah and as it falls down into night we run away  
And once again divided  
but each one knows just what we have to do  
we do  
we have to...follow through

i will lay down my heart  
i will let you go  
that's what's best for us all

(cause now we stand beneath the clouds and God  
above)  
(like we did before)  
(but this time for her)  
(i'll follow through)

You're everything i ever want to be  
the only thing i ever need to know  
i'd wait for you till time lay down to sleep  
and i'd sneak across the world to let her know

hold my heart  
patiently  
And take my hand  
Yeah walk with me  
cuz when the evening comes  
we'll set the world on fire  
And i was wrong  
let me help you live on..  
And you were everything I ever want to be  
The only one I ever need to know  
I'd wait for you til time lay down to sleep  
Yeah And I'd sneak across the world to let her know

Yeah and as it falls down into night we run away  
And once again divided  
but each one knows just what we have to do  
we do  
we have to...follow through

(hold my heart  
patiently  
And take my hand  
Yeah walk with me)  
cuz when the evening comes  
we'll set the world on fire  
And i was wrong  
let me help you live on...
