Hey
You

What's going on
I've waited by the phone
You said you'd call at eight
Well it's a little after nine
Darling you're late
Yeah

Don't say
That something's come up
'Cause girl I'm on my way
And I've got plans for you and I

So don't say
No tonight
You know I'll make you feel twice as nice
So don't say
No tonight
Baby come to me let me make
All of yours dreams come true

I haven't forgot
What turns you on
I'll sing you a love song
To put you right in the mood
We'll get straight to the groove
Yes we will

I still know
The right places to touch
To make you want to scream
Anywhere that I desire
To set your soul on fire

So don't say
No tonight
You know I'll make you feel twice as nice
So don't say
No tonight

Baby come to me yeah
Oh

Give me a chance
Tonight we'll find romance
I think you should know
Girl I need you so
I'll never let you go
(Don't say no tonight)
So please don't say no
(Not tonight)
Don't say no
(Not tonight)
Don't say no
(Please)
Don't say no
(Please)
Come in and close the door
(Please)
We're gonna make love tonight
(Please)
Yeah
Oh

I'll turn the lights down low
Take my time and do it nice and slow
Oh girl I'll have you screaming out for more
So don't try and fight it
Come in and close the door

(Don't say) yeah
(No tonight)
There won't be no TV watching
We'll be making love tonight
(Don't say no tonight)
Girl I'll put you in the mood
We'll go straight to the room
(Don't say no tonight)
Umm, I'll sing you a love song...
