I'm so low  
Theses nights there creeping by me  
Just despite me  
You're so far  
So far from everything  
So far from me  
I've seen you cry  
A thousand times  
Before me  
Lets take tonight  
To make this right

I'm waiting for another lie  
(Say goodnight, close the door, say goodbye)  
I'm praying for the tears to fly  
This isn't goodnight  
This is goodbye

You're so low  
So dark you burn so well  
But I wont tell  
All the borders you've crossed  
And the time that I've lost

We dance to all the wrongs songs  
Enjoy all the wrong moves  
We dance to all the wrong songs  
Enjoy all the wrong
