"Japanese Cars"

Visit "[Japanese Cars](#)" on MotoLyrics.com

We're being followed
Driver, try to lose 'em at the next lights
They're hot on our tail
They're not gonna give up without a fight
I've been mixing in infested circles
Got the dealers and me in touch
And the small other trap because purple
That's when my time runs out and strikes

She bit me, she bit me in the dark oh oh oh
And now she's sure I'm just the other to give her my
heartbreak oh oh oh
And now her brothers pumping through the suburbs in
Japanese cars
In Japanese cars

She is the air as to our storm and cross my floor
And I notice that the bamboo livin' in my floor
Oh how we got her in the night club
Go kick in the cubical
Should've kept it in my trousers but she was pushin' for
the club

She bit me, she bit me in the dark oh oh oh
She's evil, she's been planning this from the start
She set me like a show up in our life
Got the show, got these in the display window against
my desire
Jolly jolly please hurry up, help me jump in the Japanese
cars

While I'm young and while the fruits are ferm
Why must I get strong on characters, word

She bit me
La la la la la la la la la la..
La la la la la la la la la la..
