Written by Joe Nat and Devon James

Performed by Joker

Treat me right
Or don't treat me at all
Hang on tight
Or don't hang at all
Out of sight
But not out of heart
Can't be scared of the dark

That's how it is
You take and he'll give
That's how it is
Live and let live

No promises
True believer key?
No compromise
Through the crisis to steer
Speak your heart
Don't love at all
Shouldn't make you fall

That's how it is
You take and he'll give
That's how it is
Live and let live

That's how it is
You take and he'll give
That's how it is
Live and let live
