FIRST LOVE NEVER DIES

By: Eugene Wilde and Joanna Wilder

Maybe first love never ever dies

Thats why Im still in love with you

Hold me close and look into my eyes

And tell me you dont feel it too

The way it used to be when you told me

It would be forever, you and me together

And, we never really said goodbye

We never really said its over

We never really said goodbye

First love never dies

When I saw you I could hardly speak

Youre just as beautiful as ever babe

I guess its still the same mystique

First love never dies

Maybe you just wasted all of your love

We cant go back but we go on

Singing love songs we have once begun

Before we drifted far apart

Before I knew I lost my heart

Well live forever, only you (only you)

With my life together

We never really said goodbye

We never really said its over

We never really said goodbye

First love never dies

When I saw you I could hardly speak

Youre just as beautiful as ever babe

I guess its still the same mystique

First love never dies

Thefirst love, never dies

It never dies (it never does)

First love never dies...

We never really said goodbye

We never really said it's over

We never really said goodbye

First love never dies.....
