If only we could find the time  
To think about the things we do

You wouldn't do this thing to me  
And I would not do it to you

In Harmony we'd all be free

Manipulation and distortion  
Of the truth  
Will lead to hate  
Belief in superstition  
And in demagogues  
Will seal our fate

In Harmony we'd all be free  
To be ourselves and  
Grow our mind

In Harmony we'd all be free  
To be ourselves and  
Grow into the beings we could be  
If only we could open up our mind  
(Grazie a Rosanna per questo testo)
