All we are is ancient news  
Which is give and witches use  
A pandering to care for me  
I am the brackish watered  
Sea-son of one when is life done

And all we are is battered bone  
What is love and disown  
Hi dear female human clone  
Rancoured jargon is my own-ly  
Advance by chance

There is no light

'Cause it's dark and dank  
In dire need  
I need you go with godspeed  
Cause it's blank and bust  
In all that I trust is freed  
Persevere I must  
This is my goddamn creed

So where is the light  
Now that you go  
Learn to bye  
We don't see eye to eye  
The wages of divining  
Why don't we sublimingly free  
Ourselves from this world  
Hand in hand  
It's only love in demand  
Let's codify let's see the lie  
What's of your concession reply
